

## **GSAS Harvard Biotechnology Club And Science Careers Gather Employers At Harvard Medical School**

Club announces its 3rd Annual Career Fair

BOSTON, Mass., Oct. 16 /PRNewswire/ -- After a highly successful past, the GSAS Harvard Biotech Club is eager to continue matching MD's and PhDs with employers at its 3rd Annual Career Fair. This year, the Fair sponsored by Science Careers and will take place on November 7th at Harvard Medical School's Medical Education Center.

The student-run Club's mission is to fill a void at Harvard Medical School and present fellow students with career alternatives in biotechnology through its events and services. The Career Fair is integral to this mission as the largest career fair held on campus.

"As we enter this next year of Club activities, our mission continues to be to 'bridge the gap' and foster interactions between industry and our student, post-doc, and faculty members at Harvard," said Mike Owens, Managing Director of the GSAS Harvard Biotechnology Club. "An essential component of this mission has been the Career Fair which brings employers to the heart of Harvard Medical School. In a single afternoon students can learn about many leading companies while companies are able to present themselves to the 1000 members of the Harvard Community that regularly attend."

Currently confirmed companies include Abbott Laboratories, Clark and Elbing, Curagen, Decision Resources, EngeneOS, GE Global Research, GenPath Pharmaceuticals, Genzyme, Health Advances, Mediatum, MIT Lincoln Labs, Phylonix, Sequenom, Science Careers, and Wolf Greenfield Sachs. The event will be held November 7th, 2002 from 2-6 PM at Harvard Medical School's Medical Education Center at 260 Longwood Avenue. The event is free to all attendees, and no RSVP or registration is required.

Event organizer adds, "We are especially thankful of Science Careers for sponsoring this event. As a student run organization, we welcome the resources of such a prestigious sponsor and are eager to have them as part of this year's fair.

Companies interested in attending this event should contact at [kristin@thebiotechclub.org](mailto:kristin@thebiotechclub.org) for additional information.

Other Upcoming Club Events include:

October 17: Company Spotlight: Atherogenics: Academia and Biotechnology:

A Paradigm of Value Creation , Russell M. Medford, M.D.,

Ph.D., scientific co-founder, President and CEO

October 22, 2002: Early Stage Biotech Venture Capital -A Case Study,

Christoph Westphal, M.D./Ph.D., Polaris Ventures

October 28, 2002: Resume/interviewing workshop , Todd Hand, Talent

Capital Group

About the GSAS Harvard Biotechnology Club:

In the three years since it was founded by three Harvard graduate students, the Club has grown to include members from around the world. It has become a central fixture in the Boston biotech community, constantly striving to bridge the gap between industry, academia, and the general public on matters relating to biotechnology and its applications. The Club's web-content and events cover the many facets of the biotechnology and pharmaceutical industries for the 3300+ members of the Club-including students, faculty, industry professionals, journalists, and the general public. To learn more about the Biotech club's activities and become a member visit <http://www.TheBiotechClub.org> or contact Mike, Managing Director at 617-230- 1750 or [mike@thebiotechclub.org](mailto:mike@thebiotechclub.org).
